

ŚWIĘTOKRZYSKIE

Tourist Guide

ŚWIĘTOKRZYSKIE WELCOMES YOU!

The Świętokrzyskie region, beautiful and captivating, abounds in unique monuments of sacred, defensive, manor, and industrial architecture. For many centuries, the people who lived here left behind numerous relics that today serve as an attractive lesson in history. Notable figures associated with our region, such as Nobel laureate Henryk Sienkiewicz, Stefan Żeromski, Jan Gajzler and Adolf Dygasiński, have immortalized the beauty of this land in their literary works, whether in the pages of novels or the lines of poetry. In many places, including Kielce, Ciekoty, Oblęgorek, one can view family memorabilia and items related to their lives and creations. Rich in natural resources, the Świętokrzyskie region has been an important center of industry since ancient times. To this

day, many intriguing structures remain, such as mines, ironworks, blast furnaces, water systems, and production halls. Visiting Nowa Słupia, Samsonów, or Bobrza allows visitors to feel the spirit of places that once belonged to the Old Polish Industrial District. In search of atmospheric corners of the region, one can easily reach Chęciny, Chmielnik, Bodzentyn, or Szydłów. The preserved monuments of secular and sacred architecture transport visitors to an atmosphere straight out of the Middle Ages or later periods. One must not forget about the Święty Krzyż (Holy Cross) with its sanctuary, boasting over a thousand years of history, which houses the Relics of the Tree of the Holy Cross, as well as other sacred sites that hold many secrets worth seeing. Numerous castles (Chęciny, Ujazd,

Goloborze – Świętokrzyski National Park

Sandomierz, Szydłów, Bodzentyn), palaces and palace-park complexes (Kielce – Palace of the Bishops of Kraków, Kurozwęki, Częstocice, Chroberz), manors and manor complexes (Kielce – Laszczyków Manor, the manor from Suchedniów, in the Ethnographic Park in Tokarnia), churches, and monastic complexes (Święty Krzyż, Rytwiany, Wąchock, Jędrzejów) attest to the rich past of the region. Many cities and smaller towns in the province have also preserved numerous monuments of Jewish culture, which once constituted a substantial, and in some cases even predominant, group in the total population (synagogues in Chmielnik, Szydłów, Chęciny, Pińczów).

The Świętokrzyskie Mountains, located in the region, are the oldest mountains in Poland, alongside the Sudetes, featuring the highest peaks – Łysica (614 m above sea level) and Łysa Góra (595 m above sea level). The name of the mountains derives from the relics of the Holy Cross Tree stored in the monastery on Łysa Góra. The steep slopes, deeply cut valleys, and, in the lower regions, fir and beech forests characterize the highest parts of the Świętokrzyskie Mountains. A unique feature of the inanimate nature here is the goloborza – rock debris fields (areas free from forests). The largest of them, located on Łysa Góra and named after the renowned botanist Prof. R. Kobendzy, covers an area of 3.84 hectares. In 1950, the Świętokrzyski National Park was established in the mountainous area. For enthusiasts of strong experiences, active recreation, and adventures in nature, the Świętokrzyskie region has much to offer, ranging from hiking and cycling trips to horseback riding, kayaking – a recently popular form of leisure that allows for communion with nature, sailing, skiing, and even opportunities for gliding and various types of paragliding, climbing, or motocross riding. It's worth taking a ride along the Green Velo cycling trail. Motorized tourists have thematic routes at their disposal, the most important of which are the Literary Trail, the Świętokrzyski Wooden Architecture Trail, the Technical Monuments Trail, and the Archaeological-Geological Trail. The wealth of historical, cultural, patriotic, and culinary traditions of the Świętokrzyskie region is reflected in a series of events held here. From the ancient traditions of mining, such as the Dymarki event in Nowa Słupia, to fairs with centuries-old traditions, like those at the Święty Krzyż (Holy Cross) and near the Rytwiany monastery. Every year, these events attract crowds and serve as a living testament that cultivating and reviving traditions carries deeper values than mere spectacle.

We invite you to visit!

*Kadzielnia Reserve in Kielce*

KIELCE – THE CAPITAL OF THE ŚWIĘTOKRZYSKIE REGION

Kielce is the administrative, economic, cultural, and tourist capital of the Świętokrzyskie Voivodeship, home to approximately 180,500 residents. The exact date of Kielce's founding is difficult to determine. It is likely that a church dedicated to St. Wojciech was built here as early as the 11th century. The first known date in the history of Kielce is 1171, according to the historian Jan Długosz, marking the completion of the collegiate church dedicated to the Assumption of the Blessed Virgin Mary (now the cathedral). Kielce was first referred to as *civitas* (city) in 1359. The current coat of arms of the city features a golden crown (a symbol of power) and the letters CK (*Civitas Kielcensis* – residents, citizens of Kielce) on a red background. The coat of arms was established in the late 15th century by Cardinal Fryderyk Jagiellończyk.

SIENKIEWICZA STREET – THE MAIN PROMENADE

Henryk Sienkiewicz Street is the representative promenade of Kielce, combining historical character with a modern shopping center. It is 1,270 meters long, starting at Moniuszko Square and the statue of Henryk Sienkiewicz by Gustaw Zemła, unveiled in 2010, and ending at the main railway station. The origins of Sienkiewicz Street began to take shape in the late 17th century, when the city had around 1,500 residents and 252 houses. In 1823, it was named after Grand Duke Konstanty Pawłowicz. The current name has been in use since 1919. The buildings on Sienkiewicz Street from Moniuszko Square to Paderewski Street are listed in the register of immovable monuments. Among the most interesting sites are the Evangelical-Augsburg Church of the Holy Trinity from the 19th century (No. 1), the mortgage building (No. 5), the „Bristol” hotel with an annex (No. 21), the former „Polski” hotel, now the Stefan Żeromski Theatre (No. 32), a house from 1909 (No. 38), and the bank building (No. 47). Sienkiewicz Street is part of the red urban trail that leads through historical and tourist attractions in Kielce. Along „Sienkiewka”, there are numerous shops, banks, restaurants, cafes, confectioneries, and pubs.

Sienkiewicz Street in Kielce

GEONATURA KIELCE

The reserves located in Kielce: Kadzielnia, Wietrznia, and Ślichowice, which are under the care of Geonatura Kielce, allow for an in-depth exploration of the geological history of the Świętokrzyskie Land. In the **Wietrznia reserve**, limestone and dolomite were once extracted. Today, the remnants of the mining activity that ceased in 1974 are three interconnected multi-level excavations opened for tourism. At the bottom of these excavations is an educational trail, while the slopes serve as a natural geological map of the region. A modern Geoeducation Center operates here, where visitors can see, for example, a reconstruction of the Devonian seabed and, thanks to a multimedia 5D capsule, embark on an extraordinary journey to the Earth's interior.

Kadzielnia Reserve in Kielce

The **Kadzielnia reserve** was established to protect the landscape and scientific values of the limestone rocks, paleontological finds, and habitats of rare plants. Twenty-five caves have been discovered here, three of which have been interconnected and opened for tourist traffic after securing works were completed. The most notable feature of Kadzielnia is a limestone outcrop known as the Geologists' Rock. This unique place is complemented by an amphitheater with 5,500 seats, integrated into the rocky surroundings. The rock folds located in the **Ślichowice reserve** are remnants of Hercynian orogeny revealed during work in the quarry and are worth seeing. Specially

designated walking paths with viewing points have been illuminated, allowing visitors to admire the rock gallery even after dark. One must also visit the *Botanical Garden* located on the slopes of Mount Karczówka, where one can see extraordinary utility, ornamental, aquatic, and marsh vegetation.

Caves at Kadzielnia – Underground Tourist Trail

The underground trail, approximately 160 meters long, is located in the eastern part of the inactive Kadzielnia quarry, within the interconnected caves of Odkrywców, Prochowni, and Szczelinie. Along the trail, visitors can see the most interesting features of the caves, including stalactite formations and karst sculptures, as well as minerals and fossils visible in the limestone rocks. Exploring the underground trail at Kadzielnia provides a unique opportunity to look inside the rock mass that we usually see from the outside.

Ślichowice Reserve – tectonic fold

WHAT'S WORTH EXPLORING IN KIELCE

Cathedral Basilica

Founded by Gedeon in 1171, the basilica dedicated to the Assumption of the Blessed Virgin Mary was built on Castle Hill. Over the

centuries, it has been extensively remodeled and currently represents an early Baroque, three-nave basilica. Visitors have the opportunity to see the cathedral treasury and the underground crypt of the Kielce bishops.

Monastery on Karczówka

The former Bernardine monastery complex from the 17th century was founded by Bishop Marcin Szyszkowski. It is located on Karczówka Hill, in the heart of a pine forest nature reserve. Noteworthy is the chapel of St.

Barbara, featuring an interesting Baroque sculpture of the patroness of miners, created in 1646 from a block of galena – lead ore. From the restored tower, there is a beautiful view of the surrounding area.

25-307 Kielce
phone: 41 344 46 81
www.wojciech-kielce.pl

St. Adalbert's Church

The oldest church in Kielce. The first wooden temple was founded at the end of the 11th or the beginning of the 12th century. The current church was built in 1762 and expanded in the 19th century. In the church, the main altar features a painting by Jan Styka, depicting the scene of the miraculous multiplication of bread. The two side altars were funded in the late 19th century by Rozalia and Franciszek Czechowski.

Garrison Church

Chęcińska 2 Street,

Laszczyków Manor

Currently the only wooden (larch) manor in Kielce from the 18th century, housing temporary exhibitions. Next to it is the headquarters of the Kielce Village Museum's management.

Laszczyków Manor in Kielce

Castle Hill in Kielce

Stanisław Staszic Municipal Park

Established in 1830 on the basis of the Mining Directorate garden, which was handed over to the city for public use. In 1906, a monument to Stanisław Staszic was erected in the park, and in 1922, the park was named after him. The park, along with the concert shell located next to the pond, is a frequent venue for cultural, recreational, and sports events held in Kielce.

MUSEUMS

National Museum

The National Museum in Kielce is housed in the former palace of the Krakow bishops, funded by Jakub Zadzik between 1637 and 1644. The palace is the best-preserved architectural object from the Vasa period in Poland. Behind the residence, an ornamental garden known as the Italian garden has been recreated, featuring a 17th-century layout. The museum, operating within the palace, has permanent exhibitions including: *Historic interiors from the 17th and 18th centuries; Former European and Eastern weaponry; The Sanctuary of Marshal Józef Piłsudski; A gallery of Polish painting and decorative arts (from the early 17th century to the 1950s, featuring artists such as P. Michałowski, J. Kossak, J. Brandt, J. Chelmoński, and J. Malczewski).*

Museum of Dialogue of Cultures

The *Museum of Dialogue of Cultures* is a museum of positive relationships, a museum of ideas, where both the dialogue of cultures and the culture of dialogue are very important. The permanent exhibition draws from the multicultural sources of the city and region, extending beyond the borders of the „small homeland,” as well as the country and Europe. By showcasing national, ethnic, and religious diversity worldwide and recalling numerous historical examples of intercultural dialogue, it emphasizes the significance of positive relationships.

Stefan Żeromski Museum

Housed in the building of the former Kielce gymnasium, which Stefan Żeromski attended from 1874 to 1886. The exhibition covers biographical and literary materials related to the writer's childhood, his years of study in Kielce, his literary work, and selected areas of his social and independence activities.

Toy and Play Museum

It is the largest and oldest toy museum in Poland. On a display area of 631 m², several thousand exhibits are presented. Visitors can see dolls from around the world, historical and folk toys, Barbie dolls, models of cars, airplanes, ships, an electric train, and theatrical marionettes. Exploring the museum is an extraordinary adventure for children. Interactive exhibits allow young explorers of toy history to not only view but also touch the exhibits. The museum is home to Kawka Zabawka, a place created especially for families.

St. Leonard's Church in Busko-Zdrój

A wooden church around which a settlement developed in the 12th century. The current structure, built in 1699, is of timber-frame construction. The church features a flat ceiling with late Baroque paintings, a crucifix inside, and Baroque sculptures. The most important element of the presbytery's furnishings is the main altar with a late Baroque figure of St. Leonard. There is an old cemetery surrounding the church with a historical grave slab of the Rzewuski family, from which the founder of the Busko resort, Feliks, descends.

Solec-Zdrój Health Resort

The natural wealth of healing waters and a healing microclimate have attracted patients from all over Poland and abroad for centuries, wishing to actively care for their health and regenerate their strength. Diseases of the movement system and rheumatic diseases, as well as skin diseases and allergies, are treated here. Nearby, geological surveys found brine with hydrogen sulfide content eight times greater than that in currently exploited sources. This is a unique source of mineral water of this type in the world.

Wiślica

One of the oldest towns in the Świętokrzyskie region. Here, you can see the unique Wiślica floor, known as the „Plate of Orants” from 1170, the Gothic collegiate church (currently a Minor Basilica) dedicated to the Nativity of the Blessed Virgin Mary from around 1350-1360, remains of St. Nicholas's church from the 10th-12th centuries, remains of the baptismal font, and the House of Długosz from 1460, as well as visit the multimedia Archaeological Museum.

European Fairy Tale Center named after Koziołek Matołek in Pacanów

The Fairy Tale Center in Pacanów is a Squaree created not only for the youngest but also for adults wishing to travel back in time to their childhood years. The facility features a library, reading room, bookstore, „Szkatułka” cinema, „Little Theater,” workshop rooms, souvenir shop, and café. The most popular exhibit is the Fairy Tale World. Here, you can touch exhibits, discover what's in drawers. Characters from fairy tales lead children through magical and mysterious zones. In the Enchanted Garden, you can meet Thumbelina sleeping in a flower cup, and in the Land of Soria Moria, visitors can participate in a game aimed at defeating the evil Ice Queen. Every year in early June, the famous Children's Culture Festival takes place in Pacanów.

Przypkowski Museum in Jędrzejów

A museum of clocks, gnomonic instruments, various time-measuring devices (hourglasses, fire clocks, mechanical clocks), and astronomical devices. It is considered the third such collection in the world after Oxford and Chicago. Behind the museum, there is a Time Garden.

Mikołaj Rej Manor in Nagłowice

In a manor from around 1800, there is the only Museum of Mikołaj Rej in Poland, as well as guest rooms and a Tourist Information Center. The exhibition presents the writer's connections to this place and the significance of his work for Polish literature and culture, including reproductions depicting Mikołaj Rej's life and literary achievements.

Mikołaj Rej Manor in Nagłowice

Knights' Castle in Sobków

The fortress in Sobków is an interesting example of securing a 16th-century noble estate. Remnants of the manor complex built by Stanisław Sobek between 1560-1570 have survived to this day, including walls, three towers, palace ruins, and farm buildings. Currently, there are guest rooms, an active restaurant with three rooms: „Pod Zakutym Łbem,” „Rycerska,” and „Władysława IV,” as well as horse riding and carriage rides.

Knights' Castle in Sobków

Educational Farm - Ostoja Dworska

Ostoja Dworska is a place of natural beauty and historical richness that has been the scene of many fascinating stories. Numerous spots that are now mysterious ruins once thrived with manor life. The earliest mention of this place dates back to 1377. For centuries, it has been a peaceful and cozy place with a friendly atmosphere in the Przedborsko-Małoszkie Range, making it an excellent accommodation point for family and integration retreats, creating a natural setting for conducting eco-workshops for school groups, and serving as a great base for motor, cycling, and hiking tourism in the Świętokrzyskie Mountains.

Settlement in Stradowo

Centuries ago, there was the largest and most powerful early medieval settlement ever built on Polish lands. The settlement, known as Zamczysko, covering an area of 1.5 hectares, was surrounded by three suburbs: Waliki, Mieścisko, and Barzyńskie, with a total area of 25 hectares. The existence of the settlement is associated with the Wiślan state. Visiting the settlement is facilitated by a newly created system of walking paths.

Royal Castle in Chęciny

Dominating Chęciny, the royal castle was built on the ridge of a rocky hill (367 m above sea level) between the 13th and 16th centuries. Władysław Łokietek made the Chęciny fortress a center of economic, military, and political power. After the king's death, Kazimierz Wielki took over the castle, making it impregnable for 250 years.

*Royal Castle in Chęciny*

Thanks to revitalization work in recent years, tourists can visit the castle treasury, the inner part of the building, and climb two towers offering views of the Świętokrzyskie Voivodeship's panorama. On a clear day, the peaks of the Polish Tatra Mountains can even be seen.

Palace-Park Complex in Podzamcze near Chęciny

The Regional Scientific and Technological Center is housed in a 17th-century manor built by the Chęciny Starosta on the site of a former farm. It was expanded in 1673-1674 with a villa-style palace along with gardens. The interior is maintained in a Baroque atmosphere. The palace

complex features a decorative entrance gate in the form of a triumphal arch, supposedly built to welcome King Jan III Sobieski. Currently, after renovation, it houses the Regional Scientific and Technological Center.

Leonardo da Vinci Science Center

The Leonardo da Vinci Science Center is a newly established facility where youth and children can conduct scientific research, learning about natural sciences, physics, and chemistry. Interactive exhibits are located inside and outside the building in the Event Garden. Families visiting the Center will not only have a pleasant time but also engage actively in solving logical puzzles. The interactive exhibition, featuring „hands-on” exhibits, helps to understand what may seem difficult and incomprehensible.

Monastery on Święty Krzyż (Holy Cross)

The Benedictine monastery on the summit of Łysica in the heart of the Świętokrzyskie Mountains is an undeniable symbol of the Świętokrzyskie Region. It houses the Relics of the Holy Cross, which were most likely donated to the monastery by the Hungarian prince Emeryk, who visited Poland at the invitation of Bolesław Chrobry. They are located in the Oleśnickich Chapel, whose ceiling and walls are adorned with paintings depicting apostles and scenes related to the relics. The monastery complex includes a crypt of Jeremi Wiśniowiecki and the Oblate Mary Immaculate Missionary Museum. Over the entire complex rises a church tower rebuilt in 2014 with a viewing terrace offering a beautiful panorama of the Świętokrzyskie Mountains.

Nature Exhibition in the Świętokrzyski National Park Museum on Święty Krzyż (Holy Cross)

The nature exhibition, located in part of the monastery buildings on Święty Krzyż, serves as a treasury of knowledge about the nature of the Łysogóry Mountains and the entire Świętokrzyski National Park. The multimedia exhibition prepared there presents the world of the park's fauna and flora in an accessible manner, as well as issues related to geology and the prehistoric times of the region.

Educational-Museum Center "Świętokrzyski Sztetl" in Chmielnik

A historic building from the mid-18th century that served as a religious center for the Jewish community until the outbreak of World War II. During the war, the interior was devastated and converted into a warehouse. Since 2013, a modern multimedia museum focusing on nearly a hundred Jewish communities from the former Kielce region has been operating in the synagogue. One of the attractions is the world's only glass bima, a reconstruction of the former one made of stone.

Heritage Park of the Świętokrzyskie Mountains „Łysa Góra”

The Legend Park is a place full of magic, witches, devils, converted brigands, noble knights, and... saints. Here, good always triumphs over evil. You can learn about the origin of the madejowe łożo and what the brigand Kak did to hang in Cracow, what witch sabbats looked like on Łysa Góra, and what devils were afraid of, who the mysterious pilgrim was, and what the miraculous spring is famous for. The ancient Świętokrzyskie Mountains hide many secrets passed down through generations in legends and tales. The Legend Park is where all these stories have been gathered in one place to preserve this invaluable intangible cultural heritage of the region for the future. In the Legend Park, you can also experience what it's like to fly on a broomstick.

May – September:
daily 10.00-18.00

Ethnographic Park in Tokarnia

The park features the most valuable examples of wooden architecture from the 18th and 19th centuries. Among the most interesting and valuable are the manor from Suchedniów, a granary from Złota, and a Baroque church from Rogów. Here, interiors of 19th-century cottages, blacksmith, carpenter, shoemaker, 19th-century pharmacy, shop, and sewing workshop are presented. Many interesting events take place during the season, including Lead Casting, Family Sundays in the Open-Air Museum, and the Świętokrzyski Agrotourism Fair.

Krzyżtopór Castle in Ujazd

Built by Wawrzyniec Senes in 1631-1644, the „Krzyżtopór” castle in Ujazd was the largest palace structure in Europe before the construction of Versailles. The founder of this „palazzo in fortezza” - the Sandomierz voivode Krzysztof Ossoliński aimed to impress his contemporaries. Thus, the monumental palace complex, integrated into a five-sided bastion fortress, was built based on a calendar. It had as many windows as there are days in a year, as many rooms as there are weeks, as many great halls as there are months, and towers as there are seasons.

The Wielopolski Palace

It was designed in the eclectic style popular in Poland at the end of the 19th century. Eclecticism is a derivative style—one of the variants of historicism, characterized by combining elements from various, often very distant stylistic epochs within a single building. The palace, along with the park, forms a palace complex that was entered into the register of immovable monuments of the Świętokrzyskie Voivodeship on September 16, 1975. It is one of the most valuable monuments in Ostrowiec Świętokrzyski. The history of the Wielopolski Palace is closely linked to the history of the Ostrowiec estates, which included Częstocice.

Sandomierz

Sandomierz is a city with a preserved medieval urban layout, featuring remnants of defensive walls, the Opatowska Gate, a Renaissance town hall in the city center, and the Kazimierz Castle overlooking the Vistula River. Among over a hundred historic sites, notable attractions include St. James's Church, one of the oldest brick sacred buildings in Poland; the House of Długosz, a well-preserved example of a Gothic residential house; and a 470-meter Underground Tourist Route. The offer of Sandomierz is complemented by the approximately 500 million-year-old Pieprzowe Mountains and the loess Queen Jadwiga Gorge. The best views of Sandomierz can be enjoyed from the deck of a boat during a cruise on the Vistula.

Popiel Palace in Kurozwęki

Corn Maze – Kurozwęki

STASZÓW COUNTY

Palace Complex in Kurozwęki

In the second half of the 14th century, a castle was built in Kurozwęki. Initially a defensive structure, it has been rebuilt multiple times and acquired its current appearance as a Baroque-Classical residence in the 18th century. It is worth visiting the interiors of the Kurozwęki palace, including the cellars, and taking advantage of accommodations in the stylish palace interiors, Orangery, and Outbuilding. An unusual attraction is a herd of American bison, which can be viewed from within a „bison safari” wagon, a beech maze, and a corn maze available from mid-July to the end of October, covering an area of 4.5 hectares. In 2018, a Popiel Brewery was opened on the premises, producing beer from high-quality raw materials and water drawn from its own deep well. Guests can also enjoy a café and restaurant, where, in addition to delicious homemade cakes and traditional dishes, they can taste bison meat dishes.

Pustelnia Złotego Lasu in Rytwiany

In 1624, the Eremus Silvae Aureae – the Golden Forest Hermitage was built for the Camaldolese of the Monte Corona congregation near Rytwiany. At that time, the Church of the Annunciation of the Blessed Virgin Mary, monastic and economic buildings, and the Eremitorium—a complex of hermitage houses—were established. Currently, the „Golden Forest Hermitage” is the first therapeutic center in Poland established

Pustelnia Złotego Lasu in Rytwiany

based on a former Camaldolese monastery, specializing in therapies for people at risk from the effects of civilization, including workaholism, shopping addiction, internet addiction, etc. Additional attractions of the hermitage include the Camaldolese Gallery, a museum dedicated to the series „Czarne Chmury,” and the monastery gardens.

Szydłów

Szydłów is one of the most beautiful medieval defensive ensembles. The appearance of the town is attributed to Kazimierz Wielki, who surrounded it with powerful walls and transformed it into a fortress. Four sections of walls, about 700 meters long, have been excellently preserved. In the past, the town was entered through gates, with the only surviving one being the so-called Krakowska Gate. The most important object in the royal town was the stone castle, founded by Władysław Jagiełło, which can still be seen today. The functioning Royal Castles Museum is located in the so-called Treasury. Here, visitors can see models of castles, including two models from Szydłów, the imperial complex in Aachen, the Great Masters' palace in Malbork, and Wawel in Kraków, as well as realistic figures of well-known personalities living at the turn of the 14th and 15th centuries, made to scale 1:1. All this is enhanced by a multimedia layer, allowing you to virtually light a fire in the fireplace to warm the room before the king's arrival, bring wine for the evening feast, or participate in a knightly tournament. The exhibition is also supplemented with artifacts discovered during archaeological explorations of the Szydłów castle, including coins, tools, clothing and weapon elements, tiles, and ceramic vessels.

The Kraków Gate in Szydłów

Skarbczyk – Museum of Royal Castles in Szydłów

Szydłów – shop in *Plum Museum*

Plum Museum – Plum in Chocolate Manufacture

At the Plum Museum, history is combined with the present. We talk about a 600-year tradition of orchard cultivation and methods of drying plums. The Szydłów plum is the cultural and national heritage of Szydłów. The museum highlights the significance of the plum in the culture and life of residents, not only in Szydłów but for people worldwide. A significant element of the Plum Museum is the Chocolate Plum Manufacture. In this part of the museum, visitors can learn how the famous Polish praline—plum in chocolate—is made, discovering its historical production line. Many food products created from this magnificent fruit can also be purchased here.

WŁOSZCZOWA COUNTY

Czarnca

Czarnca is most likely the birthplace of Stefan Czarniecki, the later Grand Field Hetman. In the presbytery of the church of the Assumption of the Blessed Virgin Mary and St. Florian, funded by Czarniecki, there is a bronze bust and a sarcophagus. The most memorabilia is found in the chapel added in the 19th century, featuring a 16th-century image of Our Lady with Child from the hetman's field altar. At the nearby school, you can visit the Chamber of Memory of Hetman Stefan Czarniecki.

Wooden Church in Kossów

The wooden church dedicated to Our Lady of Częstochowa was built on the site of the original All Saints Church in the first half of the 17th century. Next to the temple, there is an 18th-century wooden bell tower worth noting.

NARROW-GAUGE RAILWAYS

Świętokrzyska Narrow-Gauge Railway „Ciuchcia Ponidzie”

The Świętokrzyska Narrow-Gauge Railway uses a line built by Austrian troops in 1915 and is one of many tourist attractions in Ponidzie. The „retro” train, which may include a vintage steam or diesel locomotive, passenger cars, an „outdoor” wagon, a „summer” wagon—without a roof—or a dining car, runs on the Jędrzejów – Jasionna – Jędrzejów route (total 18 km). Tourists riding this vintage train have the opportunity to admire the beautiful landscapes of Ponidzie and the Nadniziński Landscape Park. During the ride, organized groups can request a stop in Jasionna

Świętokrzyska Narrow-Gauge Railway „Ciuchcia Ponidzie”

to grill sausages over a fire (provisions at your own expense).

Dojazd 1/3 Street, 28-300 Jędrzejów
phone: 695 592 836
www.swietokrzyskakolejka.pl
operates: every Sunday from May 1 to September 30
(departure from Jędrzejów Narrow-Gauge Station at 10:30)

NATURE OF THE ŚWIĘTOKRZYSKIE VOIVODESHIP

ŚWIĘTOKRZYSKI NATIONAL PARK

Świętokrzyski National Park is one of the oldest national parks in Poland, established in 1950, protecting a unique fragment of the Świętokrzyskie Mountains. Its area, expanded in 1996 and 2022, now covers almost 8,000 hectares. The heart of the park is the Łysogóry, covered with the famous „fir forest” – the highest range of these mountains – with the legendary Święty Krzyż and Łysica. Dominated by fir and beech forests, it conceals the wealth of Świętokrzyskie nature. Five strict protection areas have been designated within the park: Chelmowa Góra, Łysica–Święty Krzyż, Czarny Las, Mokry Bór, and Psarski Dół, together covering 38% of the park's area. The park is home to many species of plants, fungi, and animals. A particular attraction is the gołoborza – extensive rubble fields of quartzite boulders, sedimentary rocks that formed over half a billion years ago. The most famous of these, located on the northern slope of Łysa Góra, is a characteristic

Fir Forest

symbol of the park. Świętokrzyski National Park is a place where nature merges with legend – ideal for lovers of hiking, history, and wild nature.

classes: organized year-round by prior arrangement.

LANDSCAPE PARKS

Team of Landscape Parks of the Świętokrzyskie Mountains:

Cisowsko-Orłowiński Landscape Park – a park of 20,707 ha, established to protect valuable natural and landscape resources and maintain the purity of the waters of the Czarna Staszowska River. 63% of the park's area is covered by forests, and the peculiarities of the living nature are protected in the reserves: Białe Ługi, Cisów, Zamczysko, and Stopiec.

Chęciński-Kielecki Landscape Park – a park of 20,505 ha, is the only place in Europe where rocks from all geological eras occur within such a small area, representing the history of the Earth over the last 550 million years, from Cambrian to Holocene.

Jeleniowski Landscape Park – a park of 4,295 ha, with 66% of its area covered by forests. Among the non-living nature's peculiarities are periglacial weathering forms – gołoborza, composed

of very hard Cambrian quartz sandstones, occurring on the slopes of Jeleniowska Mountain and Szczytlniak.

Sieradowicki Landscape Park – a park of 12,106 ha, famous for its historical values. The Siekierzyńskie forests provided shelter for January Uprising participants and partisans during World War II.

Nida River

Jeleniowski Landscape Park

Suchedniowsko-Oblęgarski Landscape Park – a park of 21,407 ha protects unique natural resources, notably the Dalejów and Świnia Góra reserves and the famous Dąb Bartek.

Complex of Landscape Parks of Ponidzie:

Kozubowski Landscape Park – a park of 6,613 ha with outstanding landscape, nature, and aesthetic values. It features interesting xerothermic flora.

Nadnidziański Landscape Park – a park of 23,164 ha, established to preserve and protect natural values, related to the surface occurrence of a gypsum series, creating a unique set of phenomena and forms of gypsum karst. A characteristic element of the park's landscape is the valley of the Nida River.

Szaniecki Landscape Park – a park of 10,915 ha that protects enclaves of valuable landscapes with picturesque limestone and gypsum hills, as well as warm-loving xerothermic, marsh, and halophytic vegetation scattered throughout a

vast, harmonious expanse of meadows and fields.

NATURE RESERVES

Mount Barania – Strawczyn municipality, 1993, forest reserve, area 82.09 ha, multi-species natural forest community with numerous occurrences of common ivy and picturesque loess ravines.

Barcza – Zagnańsk municipality, 1984, inanimate nature reserve, area 14.57 ha, exposures in abandoned quarries of Lower Devonian rocks with tuffs, indicating volcanism in the Świętokrzyskie Mountains.

Białe Ługi – Daleszyce municipality, 1959, peat reserve, area 408.44 ha, the most valuable non-forested high peat bog (136.80 ha). Characteristic transitional forms of vegetation from non-wooded communities to forest.

Biesak-Białogon – Kielce municipality, 1981, inanimate nature reserve, area 13.08 ha, exposures of Ordovician and Cambrian rocks, reflecting many interesting tectonic phenomena (shapes of rocks, complex fault systems, tectonic mirrors).

Bliżyn-Kopalnia Ludwik – Bliżyn municipality, 2023, forest reserve,

area 92.37 ha, fresh upland forest, moist upland forest, upland ash forest, protected plant species including sword lily, large-flowered lily, wild garlic, forest gnome, mountain content, ribbed fern.

Bliżyńskie Łasy Naturalne – Bliżyn, Łączna, and Suchedniów municipalities, 2025, forest reserve, area 2,964.91 ha. Protects unique upland fir forests, multi-species coniferous and deciduous forests with fir, beech, oak, and pine. A refuge for rare birds (e.g., pygmy owl, white-backed woodpecker) and wolves.

Mount Bukowa – Kluczewsko municipality, 1959, forest reserve, area 34.86 ha, deciduous forest of a primary character with a beech stand aged 90–130 years.

Chelosiowa Cave – Piekoszów municipality, 1997, inanimate nature reserve, area 25.83 ha, diverse karst forms along with the longest cave system in the Świętokrzyskie region, developed in Devonian limestones.

Ciechostowice – Bliżyn municipality,

1953, forest reserve, area 7.43 ha, natural mixed forest communities with fir, pine, oak, and larch.

Cisów named after prof. Zygmunt Czubiński – Daleszyce municipality, 1970, forest reserve, area 40.58 ha, a fragment of natural, primary mixed forest, located in the eastern part of the Cisowskie Range.

Dalejów – Bliżyn municipality, 1978, forest reserve, area 87.76 ha, multi-species stands of a natural character, mainly composed of fir and Polish larch aged 80–150 years.

Dzikie Staw – Rytwiany municipality, 1998, forest reserve, area 6.52 ha, a concentration of European larch trees and a karst lake with a meadow perimeter.

Ewelinów – Łopuszno municipality, 2006, forest reserve, area 14.89 ha, a fragment of forest with rare and endangered vascular plant species.

Gagaty Sołykowskie – Stąporków municipality, 1997, inanimate nature reserve, area 13.33 ha, exposures in an abandoned clay pit, Lower Jurassic rocks

Bukowa Góra Nature Reserve, Kluczewsko Commune

Barania Góra Nature Reserve, Strawczyn Commune

Sołtykowskie Gagates Nature Reserve, Stąporków Commune

Miedzianka Mountain Nature Reserve, Chęciny Commune

with mineralogical finds – carbonate iron minerals and a rare variety of coal – jet, as well as paleontological (imprints of reptiles and plants).

Gaj – Jędrzejów municipality, 1959, floristic reserve, area 5.90 ha, on a small area of an oak seedling forest, occurrences of the common orchid in its undergrowth.

Mount Dobrzyszowska – Łopuszno municipality, 1982, forest reserve, area 24.57 ha, natural ecological complex with prehistoric archaeological sites.

Mount Jeleniowska – Nowa Słupia municipality, 1997, inanimate nature reserve, area 15.56 ha, rock outcrops, ruins, and rock debris like gołoborza made of quartz sandstones, and natural beech-fir forest communities.

Miedzianka Mountain – Chęciny municipality, 1958, inanimate nature reserve, area 25.00 ha, a hill with rare minerals and numerous traces of past mining activities related to the extraction of ore.

Mount Rzepka – Chęciny municipality, 1981, inanimate nature reserve, area 9.09 ha, exposures of Devonian rocks with a mass occurrence of coral and cephalopod fauna, tectonic phenomena, and hydrothermal mineralization.

Mount Sieradowska – Bodzentyn municipality, 1995, forest reserve, area 197.67 ha, the northern slope covered with a natural fir forest with a primary character.

Mount Wierzejska – Masłów municipality, Kielce County,

2025, forest and peat reserve, area 204.41 ha. Includes upland fir forest on a hill and peat bogs with characteristic flora. It is home to rare animals such as the mountain newt or the hairy newt.

Mount Zelejowa – Chęciny municipality, 1954, inanimate nature reserve, area 67.0 ha, rock forms with the most beautiful examples of karst weathering of Devonian limestones.

Mount Żakowa – Nowiny municipality, 1999, inanimate nature reserve, area 50.48 ha, aimed at preserving the remnants of former rock and ore mining, natural limestone rock forms, and sites of xerothermic vegetation.

Górna Krasna – Stąporków municipality, 2004, floristic and ornithological reserve, area

Rzepka Mountain Nature Reserve, Chęciny Commune

Sieradowska Mountain Nature Reserve, Bodzentyn Commune

Pepper Mountains Nature Reserve in Sandomierz

Grabowiec Nature Reserve in Pińczów

413.02 ha. The subject of protection is the natural stretch of the Krasna River and a fragment of its valley with valuable plant communities and protected and rare animal species, mainly birds.

Pieprzowe Mountains – Dwikozy municipality, 1979, step reserve, area 18.01 ha, a fragment of the steep edge of the Vistula River, where patches of feather grass steppe, dwarf cherry thickets, and clusters of roses, hawthorns, and blackthorns have been preserved.

Wschodnie Mountains – Wiślica municipality, 1959, step reserve, area 1.78 ha, at the top of a hill with a steep rocky escarpment, occurrences of step vegetation with spring milkweed.

Grabowiec – Pińczów municipality, 1956, floristic reserve, area 21.92 ha, occurrences of xerothermic vegetation with spring milkweed, dwarf cherry, and also ash-leaved marshmallow.

The "Raj" Cave – Chęciny municipality, 1968, inanimate nature reserve, area 7.76 ha, a karst cave system with rich and beautiful dripstone formations.

Kadzielnia – Kielce municipality, 1962, inanimate nature reserve, area 0.60 ha, a group of limestone rocks with picturesque formations, with occurrences of rare plants and caves.

Kamień Michniowski – Bodzentyn municipality, 1978, forest reserve, area 10.50 ha, multi-species forest communities up to 90 years old with fir specimens over 130 years old and picturesque exposures of quartz sandstones.

Karczówka – Kielce municipality, 1953, landscape reserve, area 26.55 ha, a fragment of a pine forest up to 170 years old, creating a beautiful landscape around a historic 17th-century monastery complex.

Kęgi Kamienne – Miedziana Góra municipality, 1994, inanimate nature reserve, area 12.75 ha, exposures of Lower Triassic sandstones with unique sedimentary structure ensembles, valuable artifacts of material culture.

Krzemionki Opatowskie – Bodzechów municipality, 1995, inanimate nature and forest reserve, area 378.79 ha, mining

fields with numerous shafts and underground exploitation of Neolithic flint mines and workshops for its processing.

Krzyżanowice – Pińczów municipality, 1954, step reserve, area 18 ha, step vegetation on a hill, where karst phenomena (sinkholes, depressions) develop in gypsum.

Lisiny Bodzechowskie – Bodzechów municipality, 1959, forest reserve, area 36.59 ha, an infield enclave of natural mixed forest covering loess ravines.

Lubcza – Wodzisław municipality, 1959, floristic reserve, area 6.50 ha, occurrences of spring milkweed and large-flowered anemone and feather grass.

Ługi – Włoszczowa municipality, 1981, ornithological reserve, area 90.23 ha, nesting sites for many rare and protected bird species, associated with wetland and forest environments.

Małe Gołoborze – Waśniów municipality, 1993, inanimate nature reserve, area 20.44 ha, a small boulder field-gołoborze and the surrounding forest with a beech stand featuring fir (up to 130 years old).

Piekło Rocks Nature Reserve near
Niekliań, Stąporków Commune

Milechowy – municipalities Chęciny and Małogoszcz, 1978, forest reserve, area 133.73 ha, forest communities with characteristics of natural assemblies and xerothermic shrub and grass communities.

Moczydło – Piekoszów municipality, 1995, inanimate nature reserve, area 16.21 ha, exposures of Devonian, Permian, and Triassic rocks with interesting mineralization phenomena and remnants of historical precious metal mining.

Modrzewie – Bałtów municipality, 1971, forest reserve, area 5.08 ha, a fragment of a multi-species deciduous forest of natural character, with larch covering a loess ravine.

Murawy Dobromierskie – Kluczewsko municipality, 1989, step reserve, area 36.29 ha, xerothermic communities, thicket

communities of roses, black-thorn, and juniper with spring milkweed.

Oleszno – Krasocin municipality, 1970, forest reserve, area 262.73 ha, a fragment of multi-species forests of natural character with a significant presence of black alder and ash.

Owczary – Busko-Zdrój municipality, 1959, halophytic, area 0.61 ha, a wet and marshy area supplied by a saline spring. Halophytic flora and fauna occur here.

Papiernia – Ruda Maleniecka municipality, 2025, forest-water reserve, area 18 ha. The reserve is located on the flood terrace of the Czarna Maleniecka River. It protects natural stands (alder, oak, birch), rare plant species, and habitats for aquatic and forest fauna.

Mount Perzowa – Strawczyn municipality, 1995, inanimate nature and forest reserve, area 33.08 ha, exposures and outcrops of Lower Triassic sandstone and natural multi-species fir stands with beech and admixtures of hornbeam, oak, and pine.

Pieczyska – Pińczów municipality, 1999, floristic reserve, area 40.84 ha, an inter-forest peat bog including peat-forming plant communities with rare species.

Piekielko Szkuckie – Ruda Maleniecka municipality, 1995, inanimate nature reserve, area 2.50 ha, a small ridge, on the southern slope of which there are numerous steps and other rock forms made of unique sandy conglomerates and Lower Jurassic sands.

Piskorzeniec Wschodni – Stupia Konecka municipality, konecki district, 2025, forest and peat

reserve, area 121.58 ha. Covers swampy forests, alders, and fir forests with numerous rare peat-forming plants. It is part of a larger forest-water complex.

Podwale – Bogoria and Staszów municipalities, staszowski district, 2025, forest and inanimate reserve, area 59.57 ha. Protects the ravine with limestone rocks and karst caves. There are old hornbeams and rare plants, making it an important habitat for bats.

Polana Polichno – Michałów municipality, 1974, step reserve, area 9.45 ha, an inter-forest glade with occurrences of steppe vegetation and numerous insect species – particularly orthopterans.

Przęślin – Wiślica municipality, 1960, step reserve, area 0.72 ha, occurrences of steppe plants with spring milkweed and Jan's feather grass. In the steep walls, crystals of gypsum arranged in a so-called „swallowtail” reaching a height of 2.5 m can be seen.

Radomice – Morawica municipality, 1953, forest reserve, area 22.89 ha, the largest natural concentration of yew in the Małopolska Upland present in forests with a varied structure.

Rosochacz – Brody Iłżeckie municipality, 1997, forest reserve, area 30.44 ha, multi-species forests of natural origin with a rich structure. Mainly composed of pine, alder, oak, and birch.

Skalki Piekło pod Nieklaniem – Stąporków municipality, 1959, inanimate nature reserve, area 6.30 ha, peculiar forms of Triassic and Lower Jurassic rocks formed due to weathering erosion (mushrooms, towers).

Skąły pod Adamowem – Brody Iłżeckie municipality, 1995, inanimate nature reserve, area 8.98 ha. Picturesque exposures of Lower Jurassic sandstones reveal interesting phenomena related to sedimentation and weathering processes.

Skąły w Krynkach – Brody Iłżeckie municipality, 1997, inanimate nature reserve, area 25.46 ha, natural exposures of Lower Triassic sandstones in a ravine on the slope, taking the form of giant blocks, thresholds, cliffs, rock mushrooms, and towers.

Skorocice – Wiślica municipality, 1960, step reserve, area 7.70 ha. A ravine built of gypsum rocks with clusters of rocks, a flowing stream, also in caves, and a rich vascular flora.

Skotniki Górne – Wiślica municipality, 1962, step reserve, area 1.90 ha, part of a gypsum hill, with developed karst phenomena, covered with a floristically diverse xerothermic grassland.

Skowronno – Pińczów municipality, 1960, floristic reserve, area 1.93 ha, the slope of a hill located among fields, covered with plant communities, steppe grasslands with spring milkweed.

Słopiec – Daleszyce municipality, 1995, floristic reserve, area 8.18 ha, a peat bog with valuable plant communities, including many rare and protected species, such as round-leaved sundew, orchids, and three-leaved buttercup.

Sufraganiec – Miedziana Góra municipality, 1961, forest reserve, area 17.31 ha, a fragment of a mixed forest of a natural character, with participation of fir, pedunculate oak, pine, maple, sycamore, and hornbeam aged up to 200 years.

Szczytniak – Waśniów municipality, 1993, inanimate nature reserve, area 6.03 ha, fragments of ancient beech-fir forests of a primeval character and a regenerating gołoborze, built of Cambrian sandstones.

Ślichowice named after Jan Czarnocki – Kielce municipality, 1952, inanimate nature reserve, area 0.55 ha, in the outcrop of an old quarry, a classic geological profile of an overturned fold.

Świnia Góra – Bliżyn municipality, 1953, forest reserve, area 50.78 ha, one of the most beautiful mixed and age-diverse forests in Poland with great diversity and variability of habitats and

Nature Reserve Skąły pod Adamowem,
Brody Commune

forest communities.

Ułów – Bałtów municipality, 1995, forest reserve, area 23.30 ha, occurrences of rare and protected plant species and valuable forest communities. Some oaks and linden trees reach impressive sizes.

Wąwóz w Skalach – Waśniów and Nowa Słupia municipalities, 1995, inanimate nature reserve, area 3.18 ha, revealing natural

Nature Reserve Przęślin, Wiślica Commune

Nature Reserve Skorocice, Wiślica Commune

Wisła Nature Reserve near Zawichost

exposures of Middle Devonian rocks, with numerous guide fossils of global significance.

„Wietrznia” – im. Zbigniewa Rubinowskiego – Kielce municipality, 1999, inanimate nature reserve, area 20.45 ha, a profile of Devonian rocks with fossils including brachiopods, cephalopods, corals, armored fish, and phenomena of microtectonics, lead-barium mineralization, and karst.

Winiary Zagojskie – Pińczów municipality, 1960, step reserve, area 4.81 ha, steppe grasslands

covering a fragment of a gypsum hill, with numerous species of xerothermic vegetation including spring milkweed and feather grass.

Vistula under Zawichost – Zawichost and Dwikozy municipalities, 2008, ornithological reserve, area 693.977 ha (within the Świętokrzyskie Voivodeship), preserving nesting sites, feeding grounds, and resting Squares during migrations of rare and characteristic bird species of the Vistula Valley.

Wolica – Chęciny municipality,

2000, inanimate nature reserve, area 2.78 ha. Profile of shell limestone sediments from the Middle Triassic exposed in an old quarry. Interesting sedimentary structures, including layers of bone breccia with fish remains.

Wroni Dół – Michałów municipality, 1999, floristic reserve, area 9.94 ha, a forest complex of a hornbeam with herbaceous plants in very moist and sunny Squares, xerothermic vegetation (flowering steppe) and warm-loving shrubs (barberry, rose, privet).

Wykus – Bodzentyn and Wąchock municipalities, 1978, forest reserve, area 53.01 ha, a fragment of mixed forests of a natural character. The area of the reserve housed the partisan camp of „Ponury” – Jan Piwnik (commander of the Partisan Groups of the Home Army) (chapel).

Sobkowskie Hills – Sobków municipality, 2005, landscape reserve, area 37.18 ha, occurrences of xerothermic plants with a significant presence of protected vegetation.

Zachelmie – Zagnańsk municipa-

Nature Reserve Zachelmie, Zagnańsk Commune

lity, 2010, inanimate nature reserve, area 7.95 ha, the Zachełmie quarry area with a paleontological site of the oldest vertebrate tracks in the world along with tectonic forms, rocks, and minerals.

Zamczysko – Bieliny municipality, 1959, forest reserve, area 14.14 ha, a mixed forest of a natural character with fir, beech, sycamore, maple, hornbeam, and oak

aged up to 200 years.

Zamczysko Turskie – Połaniec municipality, 1979, forest reserve, area 2.45 ha. A small elevation of the land is covered by a stand around 170 years old, dominated by linden with admixtures of hornbeam and elm.

Zapadnie Doły – Brody municipality, starachowicki district, 2025, forest and inanimate reserve,

area 121.07 ha. Forest reserve in the Iłżeckie Forest. Protects karst forms (sinkholes) and upland fir forests and hornbeams.

Zielonka – Zawichost municipality, 1974, forest reserve, area 21.08 ha, a forest complex (small-leaved linden, pedunculate oak, elm, birch, aspen) aged 100–150 years. The reserve features deep loess ravines

EDUCATIONAL TRAILS

ŚWIĘTOKRZYSKI NATIONAL PARK:

► **Święta Katarzyna – Łysica Nature Educational Trail** „One of the Peaks of the Crown of Polish Mountains,” blue color, 7 stops, 2.5 km, walking time 60-75 minutes

► **Huta Szklana – Łysa Góra Nature Educational Trail** „Among the Noise of Świętokrzyskie Firs and Beeches,” blue color, 7 stops, 1.8 km, walking time 45-60 minutes,

► **Trzcianka – Łysa Góra Nature Educational Trail** „Trail of Mammoth Firs,” yellow color, 8 stops, 2.1 km, walking time 45-60 minutes,

► **Nowa Słupia – Łysa Góra Nature Educational Trail** „Following the Witches, Pagan Cults, and Insurgent Hideouts,” red color, 7 stops, 1.8 km, walking time 45-60 minutes,

► **Nature and Cultural Educational Trail** „Following the Narrow-Gauge Railway,” green color, 12 stops, 16.1 km, walking time approx. 5 hours,

► **Educational Trail „To Hucka Pass”** black color, 4 stops, 1.7 km, walking time 30-45 minutes. Temporarily accessible (from 01.04. to 31.10.),

► **Nature Trail „To St. Nicholas Pass”** black color, 4 stops, 1.6 km, walking time 30-45 minutes. Temporarily accessible (from 01.04. to 31.10.),

► **Historical and Nature Educational Trail in memory of Col. Marian Sołtysiak aka „Barabasz”** Bukowa Góra – Wilków, red color, 10 stops, 11 km, walking time 3 hours,

► **Horse Trail in memory of May. Henryk Dobrzański aka „Hubal,”** orange color, 4 stops, 11 km, riding time approx. 120 minutes.

HIKING TOURISM

MARKED HIKING TRAILS:

I. Red trails

► 1. Main Świętokrzyski Trail named after Edmund Massalski

The red trail named after E. Massalski is the main tourist trail in the Świętokrzyskie Mountains and one of the three main mountain trails in Poland. The history of this trail dates back to 1926 when Edmund Massalski and Kazimierz Kaznowski marked the first trail in the Świętokrzyskie Mountains leading from Kielce to Nowa Słupia. Later, after many modifications in the early 1960s, the longest continuous hiking route between Kuźniki and Gołoszyce was established, marked entirely in red. The trail connects the most important attractions in the Świętokrzyskie Mountains and crosses the highest peaks of these mountain ranges. The trail passes through the Świętokrzyski National Park, where the Monastery of the Missionary Oblates of Mary Immaculate is located on Święty Krzyż, with relics of the Tree of the Holy Cross, from which the name of

the Świętokrzyskie Voivodeship derives.

Bus stop in Gołoszyce – Mount Szczytniak (junction on the black trail Nowa Słupia – Piórków) 11.5 km – Mount Jeleniowska 16 km – Kobyła Góra (junction on the black trail Nowa Słupia – Łagów) 19.8 km – bus stop in Trzcianka 20.8 km – Łysa Góra, Święty Krzyż (start of the blue trail Święty Krzyż – Tarłów) 23.4 km – Huta Szklana 25.6 km – Podlesie (trail junction) 31.4 km – St. Nicholas chapel (start of the blue trail Wał Małacentowski – St. Nicholas chapel) 34.4 km – Święta Katarzyna (junction on the blue trail Wąchock – Cedzyna) 39.0 km – Mount Wymysłona 44 km – Mount Radostowa 45.6 km – Ameliówka (junction of trails blue Wąchock – Cedzyna) 47 km – „Diabelski Kamień” rock outcrop on Mount Klonówka 51.6 km – church in Masłów 55 km – MPK bus stop in Kielce Dąbrowa Koszarki 60.9 km – Mount Sosnowica 67.1 km – MPK bus stop in Tumlin 70.8 km – Mount Grodowa 71.8

km – Mount Wykień 74.4 km – MPK bus stop in Miedziana Góra 77.8 km – Mount Ciosowa 78.6 km – school in Porzecze 80.3 km – Mount Barania (start of the black trail Obłęgorek – Mount Barania) 85 km – viewpoint under Siniewska Góra 87.8 km – Mount Perzowa 92.6 km – PKS bus stop in Kuźniki (start of the blue trail Kuźniki – Pogorzałe) 95.2 km

CYCLING TOURISM

The Green Velo East of Poland Cycling Trail

www.greenvelo.pl/en

The trail runs through five provinces of Eastern Poland: Warmian-Masurian, Podlaskie, Lublin, Subcarpathian, and Świętokrzyskie. It starts in Elbląg in the Warmian-Masurian Voivodeship and ends in Końskie in the Świętokrzyskie Voivodeship. The trail covers 38 counties and 144 cities and municipalities, with a length of over 2079.5 km.

The trail connects the following locations:

• **In the Warmińsko-Mazurskie Voivodeship:** Elbląg – Tolkmicko – Frombork – Braniewo – Pieniężno – Górowo Iławieckie – Lidzbark Warmiński – Bartoszyce – Sępólno – Korsz – Węgorzewo – Gołdap – Stańchyski

• **In the Podlaskie Voivodeship:** Bolcie – Suwałki – Wigry – Augustów – Goniądz – Strękowa Góra (connection to Łomża) – Tykocin – Białystok – Supraśl – Białowieża – Hajnówka – Kleszczewo – Mielnik (connection to Gnojno) – Niemirów

• **In the Lubelskie Voivodeship:** Janów Podlaski – Terespol – Sławatycze – Hanna – Włodawa – Wola Uhruska – Chełm – Krasnystaw – Zwierzyniec (connection to Ulanów via Biłgoraj) – Józefów – Susiec

• **In the Podkarpackie Voivodeship:** Narol – Horyniec-Zdrój – Wielkie Oczy – Przemyśl – Dynów – Błażowa – Rzeszów – Łańcut – Leżajsk – Rudnik nad Sanem – Ulanów (connection to Zwierzyniec via Biłgoraj) – Radomyśl nad Sanem – Trześń

goraj) – Radomyśl nad Sanem – Trześń

• **In the Świętokrzyskie Voivodeship:** Sandomierz – Klimontów – Ujazd – Raków – Kielce – Obłęgorek – Sielcia Wielka – Końskie

Short connecting routes lead to the town centers: Pieniężno, Korsz, Augustów, Białystok, Białowieża, Rzeszów, Łańcut, Kielce. A longer route from Strękowa Góra to Łomża is 50 km.

Additionally, two extra connecting routes have been marked: Ulanów – Biłgoraj – Zwierzyniec (67 km) and Mielnik – Gnojno (16 km). These allow for alternative trail routes.

SINGLE TRACKS, MTB TRAILS

JELENIOWSKIE PATHS (Single tracks in the Jeleniowski Range)

The first enduro paths in the region. The difficulty level is varied enough for beginners to handle. The routes showcase a stunning variety of surfaces – from smooth to those filled with natural roots and the hard rocks of the Świętokrzyskie gołoborze, to bridges and jumps made from locally sourced materials. At the start of the „Strumyk” trail, there is parking for about 40 cars, a shelter, and a map of the Jeleniowskie Paths’ rules. Access from Witosławice by forest dirt road (1.5 km) or from Wronów.

„ŚWIST” – Red downhill trail, length 2.1 km, elevation 183 m, difficult, requiring good riding technique, lots of stones, boulders, several steep descents, rock garden, bridges, road gaps, drops.

„TRZYGŁÓW” – Red trail, length approx. 1.8 km, elevation 176 m, as the name suggests, it splits into 3 possible

descent lines before merging again, natural rock garden, bridges, interesting and long north shore allowing balance practice.

„LICHÓ” – Black trail, length 1.3 km, very difficult, fast, with numerous obstacles, high platforms, long drops, rock garden, numerous large stones, steep incline

„ŚWIĘTOWIT” – Blue trail, length 2.5 km, easy, elevation

170 m, gentle, ideal for warm-up, requires access to Chocimowska Mountain, berms, stones, small jumps.

„STRUMYK” – Green trail, length 2.3 km, elevation 183 m, easy, uphill trail with switchbacks leading to the top of Chocimowska Mountain, where there is a trail map and start gates.

Jeleniowskie Trails, Waśniów Commune

Pierścienica Mountain in Kielce

„DZIK” – Red trail, length 1.3 km, medium difficulty, elevation 150 m, natural, has a typical mountain character, no artificial bridges, platforms, etc.

ŚWIĘTOKRZYSKI WOODEN ARCHITECTURE TRAIL

Wooden churches, bell towers, manor houses, cottages, and farmsteads are true gems of the Świętokrzyskie region, known for their construction and picturesque charm. The most numerous group among these wooden monuments on the Świętokrzyski route are religious structures – churches,

Henryk Sienkiewicz's Manor in Obłęgorek

chapels, bell towers. In these often east-oriented, log-constructed churches, one can find rich polychrome paintings on walls and ceilings, as well as baroque and rococo furnishings – beautiful altars, crucifixes, sculptures, and paintings depicting the Virgin Mary and Saints. Some churches until serve the faithful today, while others, slightly forgotten and occasionally open, yearn to return to their former glory.

The route in the Świętokrzyskie region is compatible with the Wooden Architecture Route in Małopolska, Silesia, and Podkarpacie. The route is marked with brown road signs, and there are plaques with descriptions in Polish, English, and German at the sites.

Route 1: Busko-Zdrój (Church of St. Leonard) – Chotelek (Church of St. Stanislaus Bishop) – Probołowice (Church of St. James Apostle) – Stradów (Church of St. Bartholomew) – Topola (Church of the Assumption of the Blessed Virgin Mary) – Cudzynowice (Church of All Saints) – Gorzków (Church of St. Margaret) – Świniary (Church of St. Stanislaus Bishop) – Zborówek (Church of Sts. Giles and Nicho-

las) – Niekrasów (Church of the Visitation of the Blessed Virgin Mary) – Strzegom (Church of Our Lady of Sorrows and St. Andrew)

Route 2: Kurzelów (Cemetery Chapel of St. Anne) – Bebelno (Church of the Nativity of the Blessed Virgin Mary from 1745 with an 18th-century bell tower) – Kossów (Church of Our Lady of Częstochowa with a bell tower) – Rakoszyn (Church of St. Stanislaus Bishop) – Trzciniec (Church of the Exaltation of the Holy Cross) – Obiechów (Church of the Visitation of the Blessed Virgin Mary) – Mnichów (Church of St. Stephen and bell tower) – Chomentów (Church of St. Mary Magdalene) – Tokarnia (Ethnographic Park of the Kielce Village Museum) – Rembieszyce (Church of Sts. Peter and Paul)

Route 3: Kakonin (wooden cottage) – Bodzentyn (historic Czernikiewicz farmstead, ethnographic point of the Kielce Village Museum) – Radkowice (Church of Our Lady of Częstochowa) – Krynki (wooden gate bell tower at the Church of St. Martin and the Assumption of the Blessed Virgin Mary) – Par-

Church in Bliżyn

szów (Church of the Descent of the Holy Spirit) – Skarżysko-Bzin (Church of St. Joseph) – Bliżyn (Church of St. Sophia) – Mroczków (Church of St. Roch) – Odrowąż (Church of St. Rosalia) – Lipa (Church of Sts. Lawrence and Catherine)

Route 4: Góra Witosławska (Chapel of the Descent of the Holy Spirit) – Gierczyce (Church of St. Nicholas Bishop) – Stodoły (Church of St. Teresa from the 17th century) – Kleczanów (Church of Sts. Catherine and Stanislaus Bishop) – Gliniany (Church of St. Adalbert) – Ruda Kościelna (Church of the Marriage of the Blessed Virgin Mary) – Ostrowiec Świętokrzyski (Church of the Sacred Heart of Jesus) – Bodzechów (Church of Sts. Sophia and Stanislaus) – Sarnówek (Church of St. Anthony of Padua)

Route 5, known as the Kielce Loop: Kielce-Białogon (Kolonja Street, Church of the Transfiguration) – Kielce-center (intersection of Mielczarskiego and Urzędnicza streets, Church of the Immaculate Heart of the Blessed Virgin Mary) – Kielce-center (Jana Pawła

St. Stephen's Church in Mnichów

II Street, Laszczyk Manor) – Kielce-Zagórze (intersection of Prosta and Zagórska streets, Chapel of Our Lady of Częstochowa) – Kielce-Dąbrowa (chapel at the Church of Our Lady Mother of the Church) – Kielce-Dyminy (wooden chapel) – Mójcza in Daleszyce municipality (Church of Our Lady of Częstochowa) – Wola Kopcowa in Masłów municipality (wooden Chapel of St. Joseph the Worker).

ŚWIĘTOKRZYSKI ARCHAEO-GEOLOGICAL TRAIL

This route connects unique archaeological and geological attractions in the Świętokrzyskie Voivodeship, marked with brown road signs. There are also plaques with descriptions

in Polish and English at the sites.

Route: JuraPark Bałtów – Krzemionki – Nowa Słupia – Święty Krzyż – Mount Bukowa – Zachemie – Mount Barcza – „Kamienne Kręgi” reserve – Mount Ciosowa – „Ślichowice” reserve in Kielce – „Kadzielnia” reserve in Kielce – „Wietrznia” reserve in Kielce – „Karczówka” in Kielce – Raj Cave – Berbersówka – Zgórsko – Mount Zelejowa – Piekło Cave – Mount Zamkowa – Mount Rzepka – Mount Miedzianka
www.szlakarcheogeo.pl

ŚWIĘTOKRZYSKI TECHNICAL MONUMENTS TRAIL

This approximately 200 km route connects former smelters, furnaces, factories, and other sites that witness Poland's economic strength, focused in the Old Polish and Central Industrial Districts.

On the route, you can see:

The Museum Chamber of Ore Mining in Miedzianka, remains of the blast furnace plant in Bobrza, ruins of „Józef” Smelter in Samsonów, Great Smelting Furnace in Kuźniaki, Historic Smelting Plant in Maleniec, Factory and industrial settlement complex in Sielpia Wielka, old water smithy in Stara Kuźnica, „Jędrów” mill in Suchedniów, Ostrowiec Cultural Brewery in Ostrowiec Świętokrzyski, Living Porcelain Museum in Ćmielów, Starachowice Narrow-Gauge Railway, Schoenberg Palace in Wąchock, former factory complex with factory settlement in Kielce-Białogon, hydrotechnical device in Mostki, Museum

Sandomierski Apple Trail

of Nature and Technology „Ekomuzeum” named after Jan Pazardur in Starachowice, ruins of the rolling mill in Nietulisko Duże, Prehistoric Flint Mines „Krzemionki”, remains of the water system in Brody, Museum of the White Eagle in Skarżysko-Kamienna, Museum of Ancient Metallurgy in Nowa Słupia, Sugar Industry Memory Chamber in Ostrowiec Świętokrzyski.

SANDOMIERSKI APPLE TRAIL

The Sandomierz land is a region with significant historical, natural, and cultural values, and also an agricultural area focused on fruit and vegetable processing. On the „Sandomierski Apple Route”, you can find orchards with 2-3 generations of tradition in producing

The „Raj” Cave in Chęciny

Sandomierski Apple Trail

Sandomierski Wine Trail

apples and pears. Here, you can learn about the rich cultural heritage, regional traditions, local entrepreneurship, modern technologies related to fruit cultivation.

The route includes the municipalities of the Sandomierz County, totaling about 200 km. More information at www.szlakjablkowy.pl

WINE TRAIL

The Świątokrzyskie land is abundant with vineyards producing wines with a rich range of aromas and flavors. However, these vineyards offer more than just grapevines; there are many places worth stopping for a longer visit to enjoy tasting local products. It is worth knowing that some vineyards offer enotourists the possibility of accommodation and interesting workshops.

A woman with blonde hair tied back, wearing a light blue tank top and denim shorts, stands on a curved stone path. She is looking up and reaching out with her right hand towards a large, cylindrical water feature. The water feature is a thick, vertical column of water that cascades down, creating a dense spray. The scene is set outdoors in a park-like area with green trees and a black metal fence in the background. The lighting suggests late afternoon or early morning, with a warm glow. A wooden bench is visible behind the woman.

HEALTH RESORT BASE

*Spa Park in Busko-Zdrój*

Uzdrowisko Busko-Zdrój S.A.

Uzdrowisko Busko-Zdrój S.A. has been effectively supporting the treatment of rheumatological, neurological, orthopedic-traumatic, cardiological, and dermatological conditions for nearly 200 years and rehabilitating patients diagnosed with cerebral palsy. Its greatest assets are the unique sulphide water and iodide brine, which is why many call it the World Center of Sulfur Baths. Visitors to the health resort can benefit from nearly 90 types of therapeutic treatments, enriched with a Spa offer. Services are provided by highly qualified medical staff, based on the highest standards, using modern equipment. Additionally, the facilities owned by the company offer comfortably equipped rooms and serve delicious and healthy cuisine. The resort has its own line of „Śloneczne Kosmetyki” based on natural therapeutic substrates (including sulphide water, iodide brine, and peat), which are an excellent complement to the treatment. The company is famous for producing natural mineral water „Buskowianka,” appreciated not only in the country but also abroad. Buskowianka replenishes minerals in the body, strengthens the immune system, counteracts fatigue, and quenches thirst perfectly. It is recommended in the prevention of osteoporosis and disorders of the digestive and musculoskeletal systems. All facilities within the company participate in a proprietary loyalty program and honor, among others, the National Senior Card and regional Senior Cards. Within Uzdrowisko Busko-Zdrój S.A., the following facilities operate: Sanatorium MARCONII, KRYSZYNA, GÓRKA, MIKOŁAJ, WILLA ZIELONA, OBLĘGOREK, Health Resort Clinic, and Willa CYPRYS
